

LaGrange County RC Club

January 08 Newsletter

The meeting was opened by President Ed Chobot at 7:00. Eleven members present. Minutes were read and approved. Jim gave the treasurer's report of \$385.04 and it was approved.

Old Business: The 2.4 GHz radios were discussed at length and it was approved to provide no special requirements for those using them.

New Business: The new AMA Park Flier program was discussed on how it could affect our club. Jerry is to check on the definition of a Park Flier and check with AMA on how they perceive this program for the February meeting. The maintenance of the field extension to the East was discussed on how best to prepare it for flying. It was decided first to have Dave check and see if filling would be permitted. Then if Dave can get the roller this spring we can then determine what it will take financially. Meeting adjourned at 7:35.

Editors Comments: Eric and Craig showed some of our summer flights and mishaps with a DVD presentation. February is the month that we nominate our slate of officers for the year. During the March meeting we vote. So think about this a bit before Tuesday and have some ideas of whom you'd like in the various positions. Also, the charter is here for renewal. All people wishing to continue membership must have their dues in by the April meeting. At that time the Tenant forms will be delivered to the county. Late comers will be added as they join or renew.
