

LaGrange County RC Club

November 08 Newsletter

Eric opened the meeting at 7:00. Minutes were read by Jerry and were approved. Jim gave the treasurer's report. We have \$477.20 in the bank. Report approved. Eight members were present.

Old Business: Fill dirt was discussed and decided that if we couldn't get the spots filled yet this winter we would do so first thing after the frost leaves. Mowers have been stored.

New Business: After winterizing the restroom it was decided to place toilet instructions about how to use on the inside of the door. Jerry is to make them up and post before spring. Craig indicated that the pin box at the Howe field was his and will be removed and stored in the brown building. 2.4 MHz radios were discussed. Many clubs are now requiring the usage of a pin so as not to get out of the habit when pilots have both systems. Further discussion in December. Next meeting will be at 7:00 at the LaGrange Community Building on the 9th.

Editors Comments: Rob brought a small helicopter to the meeting and we all took turns flying it. We also flew the Real Flight simulator. Craig had it installed on his laptop and Eric furnished the equipment to project it on a big screen. For some it was a first time experience.
