

LaGrange County RC Club

January 09 Newsletter

Eric opened the meeting at 7:00. Minutes were read by Jerry and were corrected to indicate that Dave opened the meeting as Eric was late in arriving. Jim gave the treasurer's report. We have \$567.20 in the bank. Report approved. Eight members were present.

Old Business: None

New Business: Jerry gave a membership review and it was stated that most will be rejoining. The Lease Agreement was explained in detail as there was some confusion on how it worked with the county. Vern suggested that we might want to change the meeting day to Saturday at 1:00 pm to allow those that work the opportunity to attend. It is to be discussed in the couple of indoor meeting months before a voting decision. A by-law change would be required and a 51% quorum vote needed to pass. We discussed ways to encourage new members and a sample brochure handout to be presented at the February meeting. The idea is to place these along with old RC magazines at places of interest. We are to have a show and tell of our various projects for February. Next meeting at the Community Building on February 10.

Editors Comments: March is the month that we comprise a list of people for club officers. So it might be a good idea to check those that you might nominate before that time.
