

# LaGrange County RC Club

## July 09 Business Newsletter

The meeting was opened at 1:00 with 11 members present. Treasurer's report given at \$550.11. Minutes from the June meeting were read and approved.

**New Business:** The rebuilt mower was delivered to the field by R.J. our field mowing chairman. A vote approved the mower expense. Several members paid their special dues for 2010 in order to have sufficient funds. We now have \$246.82 in the treasury after all expenses with additional dues coming in. It was voted and approved to drop the special assessment of \$75 dollars for next year. Dues for next year only will be \$25 and then revert back to \$10 for 2011. Jerry Brown donated three saw horses for the boat at the pond and R.J. donated a set of aluminum oars. The discussion of frequency pins resulted in having 2.4 pins provided in the pin box along with ham band pins. This is so people with legacy systems and the 2.4 systems can get in the habit of pinning up. The 2.4 pins are voluntary. Mike Egan will provide the pins.

**Old Business:** A discussion about the Float Fly at R.J. coming up on August 1<sup>st</sup>. Several members are working on getting a plane ready.

**Editors Comments:** Mower Serial Number: 205059U690214
