

LaGrange County RC Club

Number 09 Business Newsletter

Minutes from the October were read and approved. Jim gave a treasurers report with \$321.82 in the bank. It was approved. Seven members were present.

New Business: The past maintenance of the field was discussed and was declared successful. The mowing went well. The spring fill and planting worked out well however the new grass didn't take too good in some places. It was decided to try again to work some of the bare spots this spring. The subject of acquiring new members and have some information available to them was discussed. It was determined to have Jerry make a page available on how to contact our club and some membership requirements along with some equipment suggestions on the FlightBox website. Jerry also is to design and submit for approval a label to be placed on old magazines to be left at various businesses. He said he would work on it during the winter months. We also talked about inviting the various Boy Scout troops this spring.

Old Business: No old business
