

LaGrange County RC Club

July 10 Business Newsletter

Vern opened the meeting with 10 members present. Jerry read the minutes and it was moved to accept. Jim gave a treasurer's report of \$561.82; it too was moved to accept.

New Business: Craig will place the Seawind for sale on RCUniverse. Pictures will be furnished by Jim. All expenses to do that will be covered by the treasury. Craig to submit a bill. The large lawn mower still has not been sold. Vern to look into it. Our flight safety was discussed and we have been remiss in not adhering to our rules. We went over those. Mainly Helicopters to the east and slow fliers to the west. Gas, glow and larger electrics on the main field. This is during club flying times. The south barricades are to be moved further south. Spotters are to be encouraged. September 11 has been selected as our club invitational fly in. Vern to select a chairman.

Old Business: The mowing and field maintenance has been going great. Mower running fine with about 2 ½ gallons required to mow.
