## **November 10 Business Newsletter**

**Vern opened the November with nine members present at the Community Center. Jerry read the minutes and Jim gave a Treasurers report of \$1121.82. Both were approved.**

**New Business:** Craig indicated that he would remove the tractor battery for the winter and Jerry would winterize the restroom. Mowing was discussed and the process seems to work well. It takes about three hours and about 2 ½ gallons of gas per mowing. Vern will be checking on a good condition tag-a-long mower to speed up the mowing process and reduce the run hours on the tractor. Jim will keep checking on the flag and will replace it as need. Weeds on the field will be treated this spring and then again in the fall and each fall after that. Indoor flying was discussed and Craig will check with the 4-H building and Eric will check with his church and Howe Military.

**Old Business:** None

**Editors Comments:** Next years dues are due by April and so is a signed lease agreement. Dues are \$10 for the year. Be sure to get your AMA up to date.
