

LaGrange County RC Club

September 12 Business Newsletter

Vern opened the meeting with 10 members present. Jerry read the minutes and they were approved. Jim also gave a Treasures report of \$1079.55

New Business: We decided to do the winter field work during our October meeting. Jerry suggested that we might consider getting new field signs. He will look into the cost and a source.

Old Business: Craig stated that the lawn mower is now repaired. It took a voltage regulator. The same guy that checked it out when we acquired it did the repairs. Craig contracted the job. Well done.

Editors Comments: True to our philosophy, we do more flying than anything else.
