

# **LaGrange County RC Club**

## **November 13 Business Newsletter**

Vern opened the meeting with 9 members present. Vern gave a Treasurers report in Jim's absence. \$971.90 which includes \$50 cash that Jerry has. Jerry read the minutes from August and they were approved.

**New Business:** Additional sides for the south side of the shelter for winter was discussed. Ron indicated that he could get some fiberglass sheets for the top half of OSB sides. We authorized him to purchase them for \$6.00. Mike thought that he my have a couple of OSB sheets and if not Ron would procure and maybe a couple of windows. He was authorized to purchase all that is necessary and turn in a bill. Vern was authorized to order another table for spring delivery to replace the outside one. We also discussed having a couple of flight stands built and Vern indicated that he would talk to Dave and see if he would be interested in submitting a quote. It was decided to lock the boat by the pond for reduced liability. Mike thinks he might have some chain and Jerry will get a lock.

**Old Business:** No old carry over business

**Editors Comments:** This was the first official meeting since August. Things going well.
